Control4 is a leading provider of automation and networking systems for homes and businesses, offering a personalized and unified smart home system to automate and control connected devices including lighting, audio, video, climate control, intercom, and security. Founded in 2003 by Eric Smith, Will West, and Mark Morgan, Control4 debuted at the 2004 CEDIA Expo home technology trade show and released its first products later that year, as an early entrant in the home automation market. Over 15 years later, the Control4 operating system now interoperates with approximately 14,000 third-party products, is available in over 100 countries, currently runs in around 400,000 homes, and orchestrates more than 15 million connected devices worldwide.

The Industry Leader in Lighting and Shades

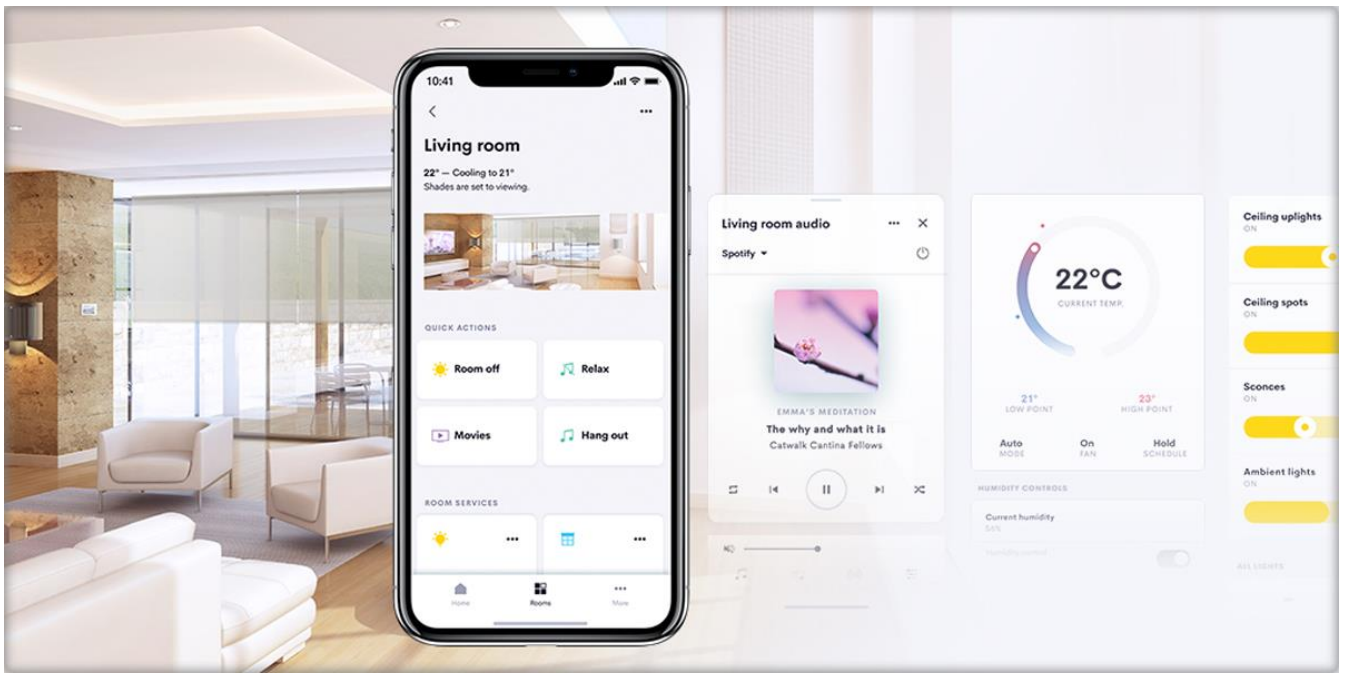

LUTRON CERTIFIED INSTALLER

RadioRA[®] 2 HomeWorks[®] QS

Lutron is a technology-centered and people-driven company. As a private corporation guided by our founder's simple but profound 5 Principles, Lutron has a long history of significant growth and smart innovations.

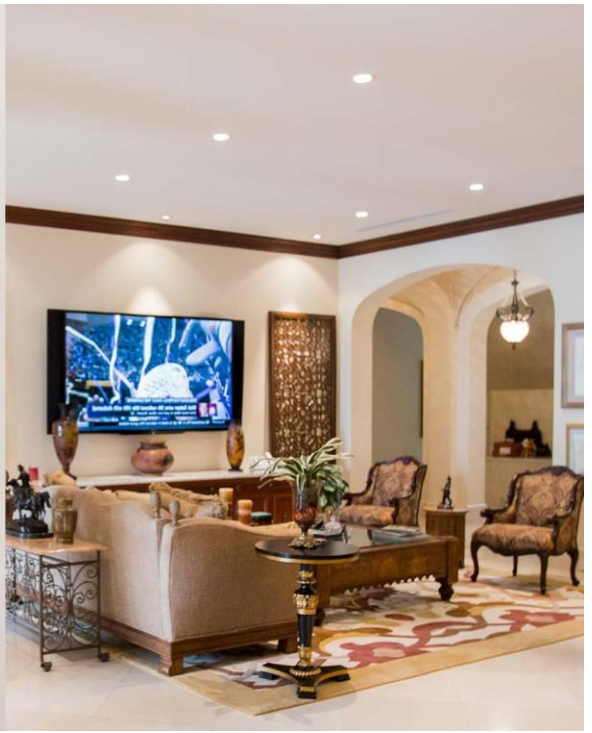

In almost 50 years of innovation, Lutron has invented hundreds of lighting control devices and systems, and expanded their product offering from 2 products to 15,000. The company has advanced the technology of lighting control while maintaining top market position by focusing on exceptional quality and design. Lutron continues to lead the market in high-quality lighting controls for fluorescent, halogen incandescent, magnetic low-voltage, electronic low-voltage and LED light sources.

Crestron has carved the path for technological innovation since 1972. We create automation solutions that transform the way people live their lives, making their day-to-day tasks easier and improving efficiency and productivity. We strive to be at the forefront of cutting-edge technology, constantly offering faster, better solutions that address the needs of customers the world over. With Crestron, you aren't just buying top-of-the-line electronics, you are investing in scalable and customized solutions, gaining 24/7 global service and support, and sponsoring products that are designed and manufactured in America.

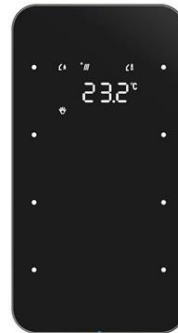

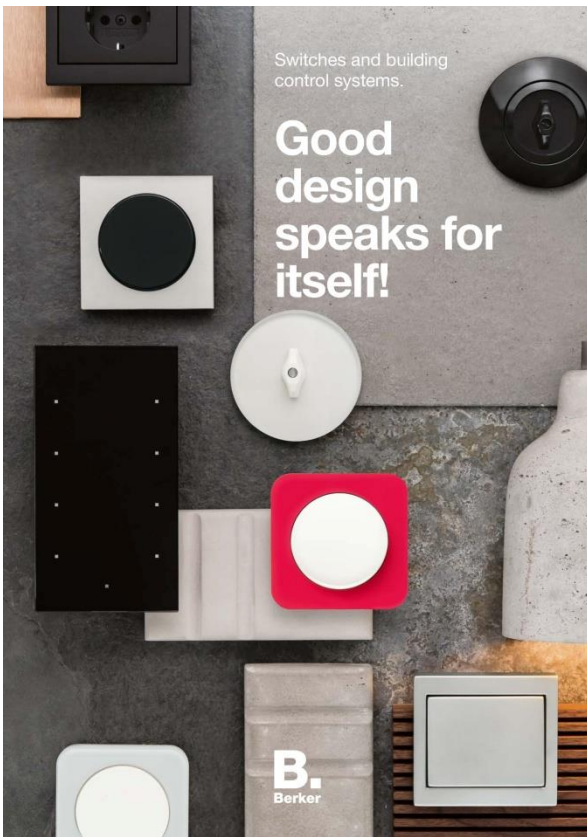

Since 1989, **ELAN** has been dedicated to simplifying and enhancing the smart home. Our award-winning smart home entertainment and control system seamlessly combines whole home audio and video, TV, climate, lighting and other home systems with an easy-to-use interface that puts you in control, from anywhere in the home or anywhere in the world.

The ELAN 8 software eliminates the need to have multiple apps and control switches for managing lighting, smart security systems, audio, video and other aspects of the connected home. All these components can now be controlled by the intuitive ELAN luxury smart home system.

Winner
TechHome™

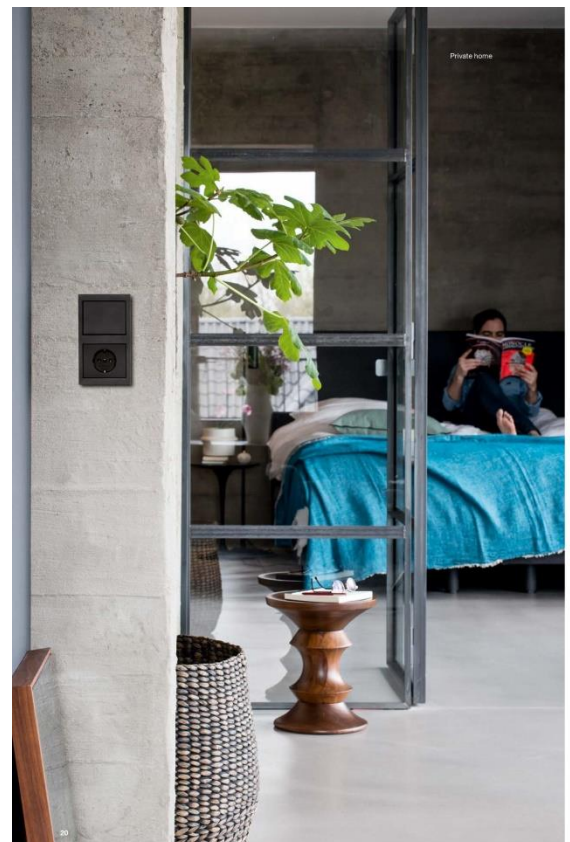

Mark of Excellence

Hager brand, with products ranging from energy distribution through cable management and wiring accessories to building automation and security systems, represents the core business of our company. This allows us to combine all the skills necessary for the development of innovative products, systems and services required for building automation.

Berker is a leading supplier of high-quality electrical installations from timeless classic switch design through to intelligent building management systems. All new developments are created with just one thing in mind: the satisfaction of our customers. After all, we want you to feel at home with our products for decades to come.

Schneider
Electric

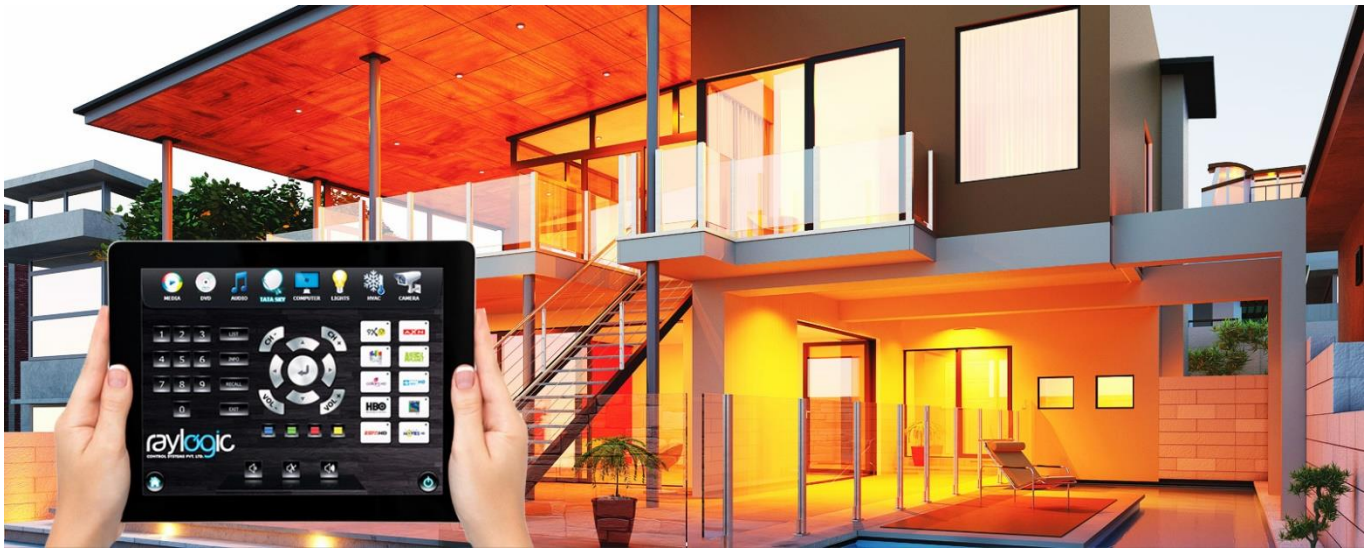

Schneider with over 180 years of history and innovation, Our story is written by generations of people who have been transforming our company – and the world – for almost two centuries. Today, our heritage empowers us to innovate at every level - and to ensure that Life Is On.

With the Internet of Things taking over the lives, automation has made lives simpler and homes smarter. Smart homes are the base to smart cities and a much secure lifestyle. It is a connected home technology that is designed to automate functions and grant you control over the property. Home control mechanism gives you the access to control the security of the house. It works on mobile application control which can be integrated with the security systems installed. You can set the schedule, and the rest is automated and based on your personal preferences thus providing convenience, control, money savings, and an overall smarter home.

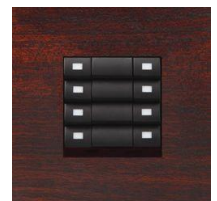

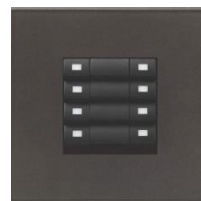

The **Crabtree** Smart Living is a must-have Home Automation Solution for any modern residential property. It has been introduced by Havells India Ltd. for Home Owners & Developers in India, in collaboration with HDL Automation Co. Ltd. Our technology is designed to be conveniently hidden from view, while the control panels come in a variety of colours, styles, and finishes to fit any contemporary decor. The technology is designed to be completely unobtrusive, while complimenting the design and providing homeowners with convenience, security, and energy efficiency. All of your systems can be controlled from elegant panels, or Android and iOS devices.

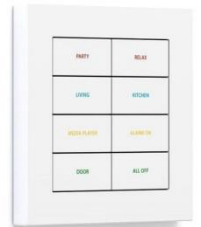

Raylogic Control Systems Pvt. Ltd. Is India's leading automation system manufacturing company. It was founded in Mumbai in 2009 to specialise in the indigenous design and manufacture of world-class control and automation equipment.

A sister concern of Raytech Designs (Estd. 1998), Raylogic shares the same build quality and reliability of Raytech products, but with a product offering targeted specifically at lighting and automation. Focused not only on a complete range of products, but on support and training as well. The company strives to bring the power of technology to its customers and end users, at an affordable price.

GREEN SUGGESTIONS

knx switches and thermostat for your home

Basalte

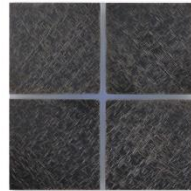

Design for the Intelligent Home

Handmade in Belgium, Basalte believes in keeping things simple, intuitive and elegant, both in its form and function. All their products are meticulously designed and handcrafted in-house and have won more than 35 international design awards.

CHOPIN

Virtuoso and Classy, controlling Chopin feels a bit like playing the piano. Push the levers up or down to dim the lights, draw the curtains and let your favourite music enter the room.

SENTIDO

Sentido is a multifunctional design switch to intuitively control lighting and more at a touch. Touching more than one surface at the same time turns on and off all the lights in a room using a general scene making it intuitive and user friendly.

FIBONACCI

With its exceptional design, interchangeable text labels and proximity sensor, Fibonacci steps up the game of home automation. The touch-sensitive surface creates an effortless way of control and an unseen user experience.

Basalte

The entire surface of our design keypads is touch-sensitive to easily switch/dim lights, control shades and play your favourite music!

Tap more than one surface at the same time to turn all lights on and off in a room. Thanks to the integration with Crestron and Lutron home automation, this multi-touch function makes light control highly intuitive and user friendly.
